Jim Boyer is a leader in pioneering technology-supported legal solutions that drive significant cost savings and operational efficiency at Ice Miller. As the Chief Information Officer, he excels in leading a diverse team to communicate overall information system functions to meet the goals and objectives of the firm.

Jim practiced law for more than a decade, before transitioning to a career in technology innovation. He is an advocate for redefining how clients engage with their legal services. His understanding of essential business needs and his legal background, also give him insight of the necessity in providing timely access to critical data and other strategies that enhance the client-lawyer relationship.

Jim's depth of knowledge and approach to technology solutions have yielded award-winning business process improvements across the legal industry.
