202 807 4021

Kevin Adams is an associate in Ice Miller's Litigation Group, focusing on Intellectual property matters.

Kevin earned his Bachelor of Science in Mechanical Engineering with minors in Intellectual Property and Global Engineering from Purdue University in 2018. While at Purdue Kevin completed multiple internships including a six-month stint with an international building design software developer in Alicante, Spain. Post-graduation Kevin worked as a design engineer at a leading material handling manufacturer. In that role he created and implemented designs relating to mechanical, hydraulic, and electrical/controls systems while also completing rotations in technical sales.

Kevin enrolled at the Indiana University Robert H. McKinney School of Law in fall of 2020 and earned his juris doctor in spring of 2023. During this time Kevin continued his work as a design engineer. Kevin also completed an intellectual property internship with an Indiana-based international pharmaceutical company where he focused on due diligence and patent prosecution relating to medical devices.
