

Nicholas Suttle

Director of Information Security

nick.suttle@icemiller.com

Nick Suttle serves as Ice Miller's director of information security and is responsible for the firm's information security functions. With nearly 10 years of experience, he has a proven track record of driving information security initiatives, leading digital transformation efforts, and working across diverse industries to optimize operational efficiency.

He serves on the IT leadership team and works closely with the firm's General Counsel on risk management matters.
